Oct.31-Nov.2, 2018

A Gateway to Enter the World's Fastest Growing
Electronics & ICT Markets

Organizer:

China Electronic Appliance Corporation (CEAC)

Produced by:

China Electronic Exhibition & Information Communication Co., Ltd. (CEEIC)

No.1 Electronics Fair in China

China Electronics Fair (CEF) is the largest and most comprehensive exhibition of electronics and information industry in China. With its debut in 1964, CEF has grown up with China's fast-growing economy and witnessed the transition and development of China's electronics and information industry from planned economy to market economy.

CEF is composed of spring, summer and fall edition held in Shenzhen, Chengdu and Shanghai respectively with a total exhibition area of 180,000 square meters each year. CEF serves applied fields including 3C, industrial control and automation, lighting and display, automobile, new energy, rail transit, defense industry, power supply, Internet of Things, cloud computing, etc. It helps your companies tap into the world's fastest growing electronics market.

CEF is a member of Asian Electronics Exhibition Conference Confederation (AEECC), which was established in 1997 to encourage mutual promotional cooperation activities among top 5 electronics and IT exhibition organizers in the Asia region. AEECC members include China Electronics Fair, CEATEC JAPAN, Hong Kong Electronics Fair, Korea Electronics Show and Taitronics.

A Gateway to Enter the World's Fastest Growing Electronics & ICT Markets

Shanghai is the biggest economy city in China and a famous international harbor city, which positions extremely importance in China. Named as China's '*economic growth pole and engine*', the Yangtze River Delta Area's electronic information industry is now developing into the new pillar industry of Jiangsu province, Zhejiang province and Shanghai, with its capital and technology intense. And this area has become one of the three information industry base, together with the Pearl triangle and Bohai Bay area, and a big investment area of IT manufacturing industry all over the world, after its industrial upgrading.

The Yangtze River Delta Area, centered with Shanghai and based with entire electronic information industry, has formed IT manufacturing, motor electronics, automobile manufacturing, industry control measurements, lighting electronics, power/energy, i.e. and located with many R&D centers of famous international enterprise, which has a strong demand of electronics sourcing.
